EU Data Act Information for coocaa

In accordance with Regulation (EU) 2023/2854 – known as the "Data Act" – coocaa provides the following transparent information regarding access to, use of, and management of data generated by its Smart TV products. For further information, please contact us using the contact details provided in this document.

1 Product Identification

This document describes data usage for all current coocaa TV devices with Google TV operating system.

2 Information about Data Usage

2.1 Data Type

Data types such as device identifications, configuration data, transmitter table data, etc., can be generated.

2.2 Format

The data format is TEXT or Binary.

2.3 Estimated Size

The data size depends on usage patterns, usually < 4 MByte.

2.4 Continiously / Real-Time Data Generation

Data generation is based on user behavior.

2.5 Storage

The data mentioned above is stored only locally on the device and not in the cloud on a server.

2.6 Data Retention

The retention period is determined by user usage or is indefinite.

2.7 Access by User

Local data generated by your usage can be deleted by resetting your TV to its factory settings. Please refer to your TV's user manual for detailed instructions on how to perform the reset.

Alternatively, you can access the system using the Android Debug Bridge (adb) (https://developer.android.com/tools/adb).

3 Contact

For any question about the data usage in coocaa TVs you can contact us at info@metz-ce.de.
